Re: Compliance Information
Bureau of Safe Drinking Water
Noncommunity Water Systems, Transient and Nontransient

In compliance with Assembly Bill 2160, the Bureau of Safe Drinking Water has developed a set of guidelines for non-community water systems in order to comply with New Jersey State Law.

A school categorized as a non-community water system will make available to staff members and parents/guardians the results of the annual drinking water quality report.

The results of the test are on file in the office of the Eagleswood Township Board of Education, 511 Route 9, West Creek, NJ, telephone 609-978-0947. Please note that all results were within normal limits. Testing performed by Henderson Laboratories.

By order of the
EAGLESWOOD TOWNSHIP BOARD OF EDUCATION
